Plan pays for emergency care worldwide	✓	✓
Plan includes wellness allowance	\$150 per year reimbursement toward health club membership and instructional fitness classes	

No need to change doctors.

You can see the doctors you're most comfortable with — who know and understand your health care needs — as long as they accept Medicare. You don't have to use a special network or pick a primary care doctor — and you don't need referrals to see specialists.

Leave your checkbook at home.

With a Tufts Medicare Preferred Supplement plan, there are no copays when you see the doctor.

Virtually no paperwork.

In most cases, claims are filed for you automatically — saving you the time and trouble.

You can't be denied coverage for health reasons.

As long as you live in Massachusetts and are enrolled (or will be enrolling) in both Medicare Part A and Part B, you are eligible for a Tufts Medicare Preferred Supplement plan.

Coverage is guaranteed renewable.

As long as premiums are paid on time, you can keep your coverage for life. You can't be cancelled (or singled out for a rate increase) due to age, health or number of claims.

Benefits automatically adjust.

Your benefit dollar amounts will automatically increase to keep pace with any increases to Medicare deductibles and coinsurance. Tufts Health Plan Medicare Preferred — part of a 30-year tradition of providing health care coverage in Massachusetts — now serves more than 100,000 members. We hope you'll give us the opportunity to earn your trust and confidence, too.

Questions? **800 517-2147** (TTY 888-899-8977) • thmp.org/supp

Tufts Medicare Preferred Supplement plans are offered in accordance with Massachusetts law.
